

CLOUD COMPUTING

Understand application usage

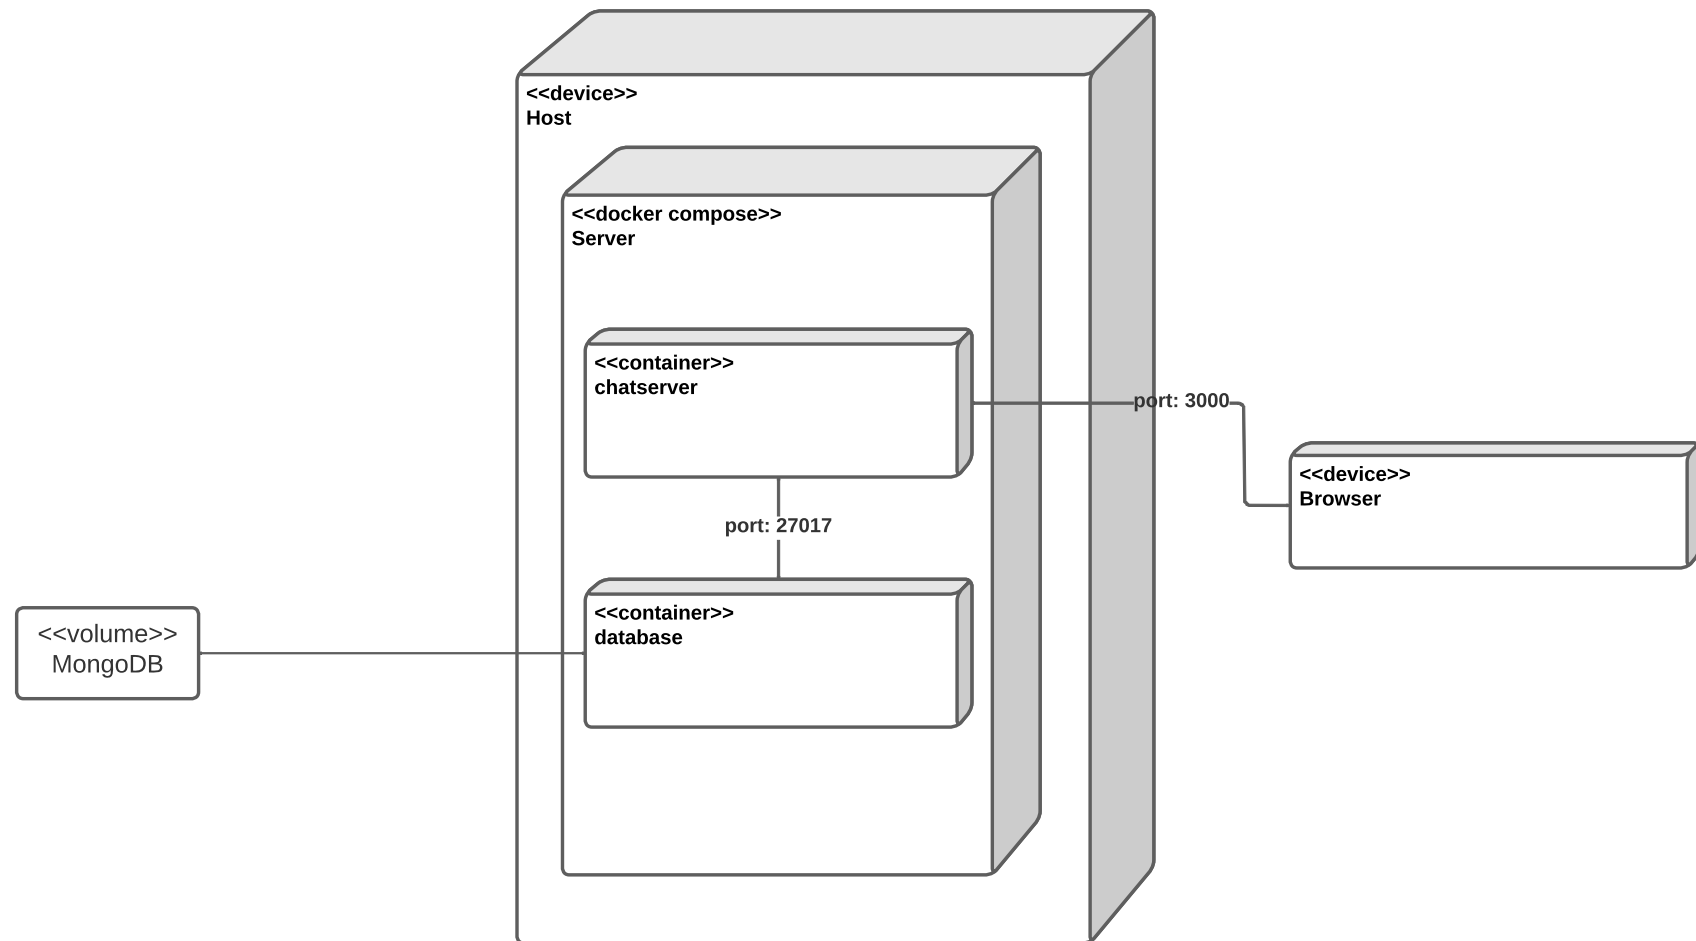

Dockerfile Chatserver

- Copy from local System into the Docker Workdirectory ,app‘
- Running npm install

Docker Compose File

- Services:
 - *server*
 - *datbase*
- Docker Images:
 - *node*
 - *mongo*

Deployment Diagram

Lessons learned

- Used Docker on an own implementation for the first time
- Did a deployment diagram for the first time
- Nothing new but – failing is hard 😞
